

# DOMAIN CAPITAL GROUP

Artwork Acquisition Program 2023  
in partnership with TILA Studios

# ABOUT THE PROGRAM

Domain Capital Group and TILA Studios, a visual arts incubator have partnered to develop exposure for emerging black women artists through Domain's art acquisition initiative. Domain's initiative aims to provide a platform for artists of diverse backgrounds to showcase their work outside of a traditional gallery model.

Improving diversity, equity, and inclusion is important to Domain's corporate culture. Supporting our community by partnering with organizations such as TILA is a testament to Domain's goal of being a good corporate citizen in the City of Atlanta.

We hope the selected works displayed throughout the office inspire Domain's employees and spark creativity. The key color displayed throughout the artwork is blue which is associated with open spaces, freedom, intuition, imagination, inspiration, and sensitivity.

TILA Studios and Domain selected six artists to help bring these themes to life. We would like to introduce you to incredible artists: Charity Hamidullah, Shardaya Jones, Mia Anika, Honey Pierre, Vessna Scheff and Erica Chisolm.

Artist, Vessna Scheff in her studio.
