

# The TILA House

5 Day Exclusive Experience and Safe Space for  
Selected Artists and Art Patrons

The **TILA House** sponsored by MailChimp is the official destination for the 10 selected artists to build community, have a safe and intimate space to relax and the opportunity to engage in conversations with art patrons over exclusive daily dinners and brunches.

The **TILA House** will host daily experiences that will invite the local community to engage in thoughtful dialogue by partnering with brands that align with our values and mission.

Our vision is to create a world where black women artists are thriving because of their art. By empowering black women, we can empower an entire community.
